UX/UI DEVELOPMENT
EXERCISE 08 – PLANNING TEST SESSIONS

NAME: _____AIGERIM TUMBAYEVA, MARLEN ZEKEN_____

PURPOSE

The purpose of this exercise is to start your testing stage.

"Testing will show" – sounds good, works poor. It is much easier to find a thing when you know what you are looking for. Before you will open your testing sessions – ensure your team knows what are you testing, and what are you looking for.

<u>**Part I**</u>

1. Use your Test Plan, and add description to your moderated tests either Guerilla or Thinking Aloud. Add details as

    a. The location

        Some little cafes, where a calm, quiet and pleasant atmosphere and tea

    b. Moderation form (in-person or online)

        In-person

    c. Participants lists

        4 Participants (Students in age range from 10 to 23)

    d. Duration

        30 min each session

    e. User Stories that will be covered

        As a user, I want to prioritize my tasks to see which one I should do first

        As a working mom, I need categories to see which area each task belongs to

        As a manager, I need to collaborate with my colleagues to create affinity diagrams for our projects

        As a student, I want to receive notifications to not miss the deadlines

    f. Equipment

        Two laptops, headphones

2. Create Participant Screener

    How old are you?

    What do you do?

    Do you have experience in using to-do apps?

3. Create Tasks, set success and failure levels.

Task	Success Time	Failure Time
Login	35 sec	➢ 1 min
Register	40 sec	➢ 1,5 min
Create board	1,5 min	➢ 3 min
Edit Profile	1,5 min	➢ 2 min
Create List with tasks and prioritize them	2 min	➢ 4 min
Share board	2 min	➢ 4 min
