Issue Rank	Issue Description	Participant Citation	Testing Method	Object	Possible Solution
5	Bad credentials	If I forget my password – there are no button or link for that	Guerilla	H2	Add forget password logic or add possibility to login through social networks
2	Search only through boards	Search is working only for boards but not for tasks	Heuristic Evaluation	H1	Add task searching at the boards page
4	No help or documentation	There is no help page or contact page or information about privacy policy	Heuristic Evaluation, Guerilla	H5	Add help link to settings
3	Avatar choosing not convenient	I wanted to see all variants for avatar that's why it took so long	Guerilla	H2	add a separate modal window for choosing an avatar
5	Board sharing are not convenient	Link just copied without any explanation I didn't immediately understand what to do	Guerilla	H4	Add some explanation before copying the link of the board
2	there must be a choice of prioritization method	I like prioritize by color Like red is really important and green is least important; I like to digitally set the priority rather than drag and drop in descending order.	Guerilla	H4	Add digital prioritizing

Rank from 1 – least important to 5 most important

Hypothesis:

H1: Search system is convenient for Users

H2: Login and registration is easy to understand

H3: Main navigation is easy to understand

H4: Boards editing is convenient for users

H5: Profile has all that needed
